DETAILED ACTION

Receipt of applicants' amendments and remarks submitted May 18, 2006 is acknowledged.

1. The terminal disclaimer filed on May 18, 2006 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of US Patent 6,899,898 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Specification Objections

2. The use of the trademarks such as Poloxamere, Poloxamine, and Resomer etc. (page 18 and examples) has been noted in this application. ***It should be capitalized wherever it appears and be accompanied by the generic terminology.***

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Reasons For Allowance

3. Applicants' amendments and remarks submitted May 18, 2006 have been fully considered, and are found persuasive with respect to the rejections over Rossling et al. Particularly, the claimed invention is solely directed to a process of making polymeric microcapsules, which requires the selection of the proper solvents so that the a suspension of the polymeric microcapsules is formed within one minute of mixing the surfactant phase and the drug phase. The solvent systems as here employed are distinct from those employed by Rossling. Rossling's method require vacuum for the removal of solvent and thereby forming the microcapsules.

Response to the Remarks about trademark.

4. As stated above, the trademark has to *be accompanied by the generic terminology*. The specification provides no clear information as to what the chemical structures are under those trademarks. Note the owners of the trademarks do not have the obligation to maintain the trademarks, and/or to insure that the product under the trademark be the same over the time period of the patent life and beyond.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
